To download OS X Server, developers should access the iOS or Mac developer portal.. Bots can generate a regular release for your QA team, be configured to execute on every check-in, and even test your apps on connected iOS devices.. As an iOS developer, you can now take advantage of continuous integration in Xcode by creating bots with OS X Server for Mavericks that automate the process of building, analyzing, testing, and archiving your apps.. As the bots do their work on the remote Mac, Xcode on your development machine displays the build and test reports.. FTC: We use income earning auto affiliate links More
